

Members make your association, they are the reason you put in the hours you do to ensure that they are receiving quality benefits for joining your association.

Managing members takes time which most associations don't have to spare. This is where PTC can assist your association.

PTC can assist in all aspects of membership management. We have specific member portals – EXAMPLE – that allows us to manage renewals, logins and reporting for you.

Members can contact PTC directly and we will manage their enquiries under your associations banner. This can be by phone, email and even post.

PTC are there for your members – questions about member logins – we can answer that. Need to know about an event or workshop – we have the details. Committee meeting coming up and member numbers are required – we have a report for that.

We can tailor membership management to suit your associations needs. This can be simply email responses to complete management of the membership cycle. PTC works with you to deliver the ultimate member experience.

Call us today on 02 9716 3078 to discuss your needs to reach to membersupport@ptc.nsw.edu.au

Let PTC help your association make the most of your membership.
